Cut and paste for me

Williams AFB – the long awaited EBR workplan (Revised Draft Final RDRA workplan) was uploaded to sharepoint on 8/8/17 and we are expecting a hard copy by Fed Ex. The cover letter includes a statement:
“If recalcitrant areas of contamination exist three to five years post EBR, nominally 10 years before the estimated time to complete, optimized remedial action, potentially included focused SEE will be evaluated, and if appropriate, implemented in coordination with EPA and ADEQ.” This is a major concession from where we were a year ago when informal dispute was invoked. (d’Almeida 2-3150)

Indian Bend Wash – Letters went out to the 25 occupants of sampled units at the Estancia Luxury Apartments in Scottsdale (now The Tides, under new ownership) adjacent to NIBW Area 7 groundwater extraction and treatment facility, providing the results of vapor intrusion sampling in individual units. This completes the forwarding of data for NIBW sampled properties. **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)
